

Stainless Steel Storage Cabinets

Quality Cabinets Configured to Meet Every Clinical Need

Nurse Document & Communication Centers

72" Wide Nurse Document & Communication Center (SORIC-72 shown)

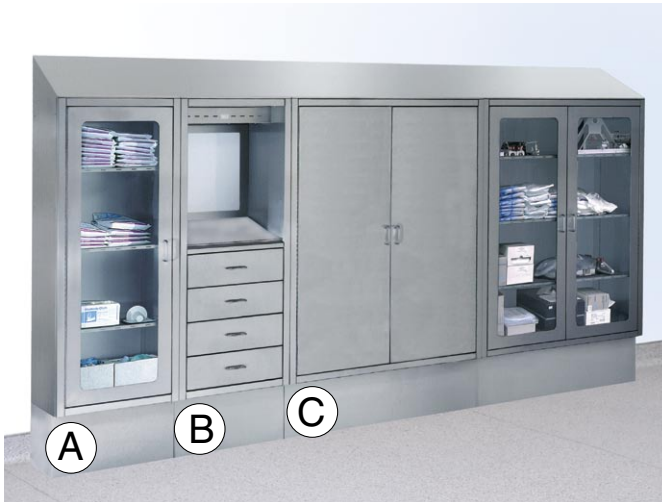

48" Wide Nurse Document & Communication Center (SORIC-48 shown)

Nurse Document and Communication Centers provide a universal control hub for advanced video and communications integration and other technologies both within and outside the Operating Room, *optional* teleconferencing, surgical and room lighting control and more. Phone, computer, video and electrical junction boxes are provided at convenient access points throughout the cabinet. A pull out, stow away shelf is built within the base design to permit the circulating nurse to face the surgical field during every surgical case.

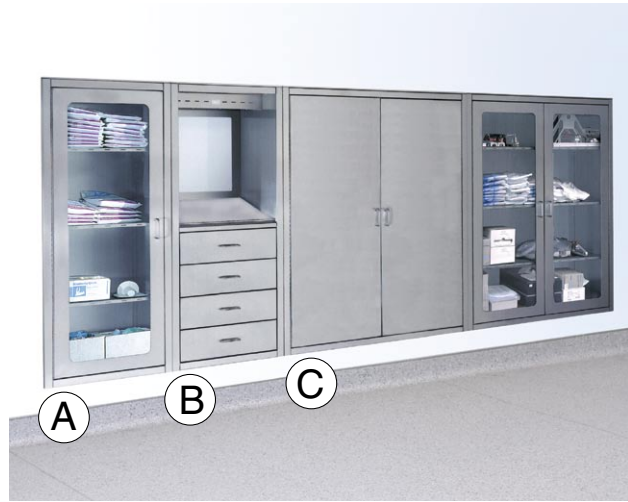

Options:

Sloped tops, base, trim kits, extra shelves, monitor mount arms and more are available to be added to the base design as required to best meet clinical needs.

Stainless Cabinetry
